

HANDICRAFTS

The Handicrafts Project concerns the involvement of inactive women from European countries such as Italy, Lithuania, Turkey and Portugal in basic training in English, computer science and business creation, supported by mobility in the countries involved, in order to learn techniques for creating souvenirs and gift items with the main purpose of promoting female entrepreneurship.

International mobility therefore includes practical training of learners, in local techniques which are typical of the host country, accompanied by guided tours to promote mutual exchange and knowledge.
